

Symbiosis Institute of Design

December 2019

We are looking for talented design educators for our young and dynamic faculty team. Please apply with your resume and portfolio at career@sid.edu.in and recruitments@symbiosis.ac.in

Positions advertised - Professors, Associate professors, Assistant Professors and Teaching Assistant as per below requirements:

Professor: Master's Degree or PG Diploma in relevant field of Design with at least 10 years' industry and academic teaching experience. PhD and research experience is mandatory.

Associate Professor: Master's Degree or PG Diploma in relevant field of Design with at least 8 years' industry and academic teaching experience. PhD and research experience is desirable.

Assistant Professor: Master's Degree or PG Diploma in relevant field of Design with at least 5 years' industry and academic teaching experience. PhD and research experience is desirable.

Teaching Assistant / Associate: Bachelor's Degree or Diploma in relevant field of Design with at least 5 years' industry and academic teaching experience.

Sr.	Position	No of Positions	Basic Qualification required		Preferred Qualification	Skill Sets
			UG	PG	PhD / Any other	
User Experience Design						
1.	Associate Professor	1	Humanities, Social Science, Science, Engineering and Communication Design	PG in relevant areas	A Master's degree in User Experience, Human-Centered Design, Human Factors, Human-Computer Interaction, Graphic, Multimedia or Interactive design, Information Architecture, or other related field is required, Ph.D. is preferred.	Experience in the following areas: Faculty member would teach a variety of courses for the degree, including but not limited to UX Principles, visual and interface design, design for AI, VR, and AR, conversation/voice interface, multimedia production and UX research, product development process, interdisciplinary work. Strong collaborative and interpersonal skills. Ability to support interdisciplinary initiatives in teaching and research with related fields in the field of Design
2	Assistant Professor	1	Humanities, Social Science, Science, Engineering and Communication Design	PG in relevant areas	A Master's degree in User Experience, Human-Centered Design, Human Factors, Human-Computer Interaction, Graphic, Multimedia or Interactive design, Information Architecture, or other related field is required	Experience in the following areas: Faculty member would teach a variety of courses for the degree, including but not limited to UX Principles, visual and interface design, design. Well experienced in all relevant User Experience design conceptual software like Adobe Photoshop, Illustrator, InDesign, XD, Axure, InVision, Sketch, interested and knowledgeable about design detailing aspects. Knowledge about latest technology developments in Prototyping will be an added advantage.
Industrial Design – Product Design						
3	Professor	2	Engineering / Architecture	PG in Product Design	B E / B Arch + M Des	Experience in the following areas: Concept to Realization, design thinking related to product design, product development process, interdisciplinary work. Strong collaborative and interpersonal skills. Ability to support interdisciplinary initiatives in teaching and research with related fields in the field of Design
4	Assistant Professor	3	Engineering / Architecture	PG in Product Design	B E / B Arch + M Des	Experience in the following areas: Concept to Realization, design thinking related to product design, product development process, interdisciplinary work. Strong collaborative and interpersonal skills. Ability to support interdisciplinary initiatives in teaching and research with related fields in the field of Design

5	Assistant Professor	1	Engineering	PG in Engineering Design	M E or M Tech	Well experienced in all relevant product design conceptual software like Creo, Rhinoceros, Alias, Plus, interested and knowledgeable about design detailing aspects. Knowledge about latest technologies like 3D Printing, Rapid Prototyping will be an added advantage.
6	Assistant Professor	1	Engineering	Engineering / Design	B E + M E or M Des	Materials and Manufacturing Processes: Experience in using various design materials and manufacturing processes. Conversant with Subjects like Product Detailing, Product Analysis, Functional Design etc.
Animation Film Design						
7	Professor / Associate Professor	1	BFA / B. Des.	MFA / M. Des.	MA with specialization in Animation	Excellent understanding of the Animation film making workflow. Software competency: 2D, 3D and Stop Motion Animation software, Pre-production, Post Production and Sound editing software.
8	Assistant Professor/ Teaching Assistant/ Teaching Associate	2	BFA / B. Des.	MFA/M. Des.	N/A	Excellent understanding of Animation Film Production, VFX and Post Production workflow. Software competency for both 2D and 3D, visual effects and post production stages of the Animation Film
9	Instructor	2	Diploma in Animation	N/A	N/A	Technical understanding of the Animation production labs, software competency is desirable, hands on guiding the students during the projects.
Basic Design						
10	Assistant Professor	5	BFA/B. Des.	MFA/M. Des.	Any Design Specialization	Well versed in teaching design basics like Visual Composition, Color Harmony, Sketching and Drawing, Rendering Techniques
